| The current order of 25 service test models is costing \$4,000 each. | | | |
| An order of 5 each would cost \$3,000.00 each, approx 5 months delivery time. | | | |

| 100 " " " 1,600.00 " " 7 " " , 4 per week. | | | |
| Army production goal was for 5,000 units at a cost of approx \$200.00 each. This will not be met due to complications involving some of the processes necessary in manufacture. OCSigO doubts there will be sufficient demand to contract for 5,000 units, they will be interested in a thousand or less. | | | |
